The rate analysis is derived from both rural and metropolitan areas.

There was considerable discussion about the district’s rates for ambulance services. The rates have not increased since 2016. President Warnke believes we can justify raising rates due to expense of call and personnel. Director Williams volunteered to do an analysis of our ambulance costs in order to better evaluate our billing rates.

Personnel-

One full time employee slated for surgery will be out of service for 4-6 weeks. It is not a work-related injury.
